SAFE FOR

Recreational Ponds,
Horses, Livestock, Birds,
Pets, Fish, Wildlife and
the Environment.

2 Packets Treats

One Acre, 4' - 6' Deep

Net Contents: 12 oz (2 Packets)

Why is Nature's Blue™ so important for ponds?

Nature's Blue Pond Dye Packets are formulated to provide ponds with a true blue color. Two packets of Nature's Blue will treat up to one surface acre 4'-6' deep, for several months, depending on rainfall. Nature's Blue Packets should be used all year long.

Nb Nature's Blue Pond Dye Packets

HOW TO APPLY: Simply toss packets in several areas around the pond - no mixing required. Two packets of Nature's Blue is equivalent to one gallon of other diluted pond and lake colorants.

WHEN TO APPLY: For year-long beauty, apply in early spring. Water temperature has no effect on Nature's Blue and should be applied monthly or as needed to maintain a true blue color all season long. Heavy rain and/or intense sunlight may require additional treatments of pond dye.

QUICK DOSE CHART

Use 2-4 packets per surface acre, 4-6 feet deep, every 4-8 weeks or as needed.

WATER USE RESTRICTIONS:

Nature's Blue Packets may be applied to lakes and ponds used for irrigation and aquaculture. Water treated with Nature's Blue Packets may be used for recreation, fishing and other activities immediately after treatment. Safe for recreational ponds, horses, livestock, birds, pets, fish, wildlife and the environment. *Do not apply to water that will be used for human consumption.*

STORAGE AND HANDLING:

Keep product in original container and closed when not in use. Wear rubber gloves when handling. Avoid contact with skin, eyes and clothing. Wash with soap and water after use. If ingested in large amounts, induce vomiting. For small cleanups and surface stains, use a diluted bleach solution.

ATTENTION:

Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in the loss or injury of aquatic life. Airmax, Inc. is not responsible for any loss of aquatic life.
